Basic Web Application Development

## About Me

As a recent graduate with a Bachelor's degree in Computer Science from Gunadarma University, I have a strong interest in web development. My passion for computers drives me to gain a deeper understanding of programming. I also enjoy facing challenges and solving complex problems. I am highly enthusiastic about pursuing a career in web programming and am committed to continuous learning through courses and obtaining professional certifications to enhance my skills and knowledge in the field of web programming.

## Work Experience

### NOTETAKER

Oct 2021 - May 2023

THE HOUSE OF REPRESENTATIVES, REPUBLIC OF  
INDONESIA (DPR RI)

As a notetaker, I am responsible for recording, organizing, and distributing meeting notes and discussions. This role requires careful listening skills, quick and accurate writing abilities, and the capability to understand and present information clearly.

### UI/UX DESIGNER

Nov 2024 - Jan 2025

ELISOFT TECHNOLOGY

As a passionate UX designer, I focus on creating user-friendly and visually engaging interfaces for web and mobile applications using Figma. I collaborate with clients and teams to design intuitive UIs, conduct user research, and develop wireframes, prototypes, and high-fidelity designs. I ensure designs are responsive and align with the latest trends, while iterating based on feedback to optimize user experiences. Despite tight deadlines, I consistently deliver high-quality projects.

### QA ENGINEER

Nov 2024 - Jan 2025

ELISOFT TECHNOLOGY

I specialize in manual and logic testing to ensure the quality and functionality of software. My responsibilities include conducting detailed tests, documenting results for clear communication, and reporting bugs to the development team for resolution. Additionally, I apply automation tools such as Selenium and Katalon for targeted testing tasks. This approach contributes to maintaining high software quality and enables seamless collaboration with the development team.

## Skills

### Hard Skill

- Operating System
- MS. Office
- Basic Programming Language
- Database Management
