

Yudho Tri Putranto

Quality Assurance Engineer

+62 812-1936-2324 putrantoyudho@gmail.com Depok, Indonesia

PROFESSIONAL SUMMARY

QA Engineer with 2 years of experience delivering quality assurance across Telecommunications, ERP, POS, AI-powered, and IoT-based platforms. Experienced in Functional Testing, Regression Testing, API Testing, UAT Coordination, and Playwright Automation. Proven track record as QA PIC in multiple projects, ensuring successful releases in Agile environments.

SKILLS

- Test Case Design & Execution
- Functional Testing
- Regression Testing
- Integration Testing
- API Testing (Postman)
- Automation (Playwright)
- Defect Management
- Release Validation
- End-to-End Testing
- UAT Coordination
- Agile Scrum
- Jira

WORK EXPERIENCE

Quality Assurance Engineer

October 2025 – Present

PT. IDstar Cipta Teknologi | Contract

- Designed, executed, and maintained test cases for web and mobile applications based on business and system requirements.
- Performed Functional Testing, Regression Testing, Integration Testing, and Release Validation to ensure application quality before deployment.
- Identified, documented, and managed defects throughout the testing lifecycle until resolution and closure.
- Collaborated with Developers, Product Owners, Business Analysts, and stakeholders in Agile/Scrum environments to ensure quality deliverables in every sprint.
- Supported User Acceptance Testing (UAT) activities and validated application readiness prior to production releases.
- Supporting digital transformation and enterprise system initiatives for leading Indonesian telecommunications companies.

Software QA Engineer

October 2024 - October 2025

PT. Zealtech Solution Indonesia | Contract

- Led QA activities across multiple client projects, including test planning, test design, test execution, defect management, and release validation.
- Collaborated with cross-functional teams in Agile environments to ensure product quality and business requirement compliance.
- Developed and maintained Playwright automation scripts to support functional and regression testing.
- Performed manual and automated testing while managing defects through Jira until release completion.

QA Engineer

July 2024 – October 2024

Elisoft Technology | Project Based

- Led Quality Assurance activities for web and Progressive Web Application (PWA) development projects.
- Designed and executed test cases while performing functional, integration, regression, and end-to-end testing.
- Managed defect lifecycle, test documentation, and release validation to ensure application quality and business requirement compliance.
- Collaborated with developers and stakeholders in Agile environments to support reliable product delivery.

PROJECT HIGHLIGHTS

XLSATU Migration Project (QA PIC)

- Led Quality Assurance activities for a service migration project from AWS to Tencent Cloud.
- Executed over 50 test scenarios covering purchasing, payment, and operational business workflows to validate system stability after migration.
- Performed microservices validation and supported release readiness activities prior to production deployment.

ESS XLSMART (Enterprise HCIS System) Migration Project (QA PIC)

- Served as QA PIC for the Human Capital Information System (HCIS) migration project.
- Designed and executed more than 90 test cases across 22 integrated services.
- Conducted Functional, Integration, and Regression Testing to ensure end-to-end business process continuity.

SIDIVA XLSMART Mobile Application

- Performed Regression Testing and feature validation for purchasing and payment-related functionalities prior to application releases.
- Participated in defect verification and ensured application quality met business requirements.

INDICO Engage by Telkomsel (QA PIC)

- Led QA activities for the development of an AI-powered digital engagement platform.
- Designed and managed over 500 test cases across multiple application modules.
- Coordinated User Acceptance Testing (UAT) activities throughout Agile sprint cycles.
- Performed both manual and automated testing using Playwright.
- Collaborated with cross-functional teams to ensure product quality and successful release delivery.

Tools & Technologies: Playwright, Trello, Spreadsheet, Agile Scrum

MAYZAR ERP & POS SYSTEM (QA PIC)

- Led QA activities for ERP and POS system development from initial development through production release.
- Designed and executed test cases, performed functional testing, and managed defect validation and release readiness.
- Conducted both manual and Playwright-based automated testing.

ACPEDIA PLATFORM (QA PIC)

- Led QA activities for a web-based platform supporting sales, installation, and maintenance services.
- Performed functional, regression, and end-to-end testing to ensure application quality and business process accuracy.
- Collaborated with development teams on defect management and release validation.

Tools & Technologies: Playwright, Jira, Spreadsheet, Agile Scrum

D'FARM DREAM PLATFORM (QA PIC)

- Led QA activities for an IoT-enabled poultry farming platform integrating operational and ERP systems.
- Performed testing across Web and PWA platforms to ensure system stability, business process accuracy, and consistent user experience.
- Designed and executed test scenarios covering multiple internal management modules and interconnected business workflows.

Tools & Technologies: Katalon Studio, Spreadsheet-Based Test Management, Web Testing, PWA Testing, Defect Management

EDUCATION

Bachelor of Computer Science

September 2020 – August 2024

University of Gunadarma

Graduated: 2024 | GPA: 3.57

CERTIFICATIONS & TRAINING

- EF SET English Certificate (B2 Upper Intermediate)
